

13th International Workshop on Meson Production, Properties and Interaction

KRAKÓW, POLAND

29 May - 3 June 2014

ABSTRACT SUBMISSION EXTENDED

Dear Colleague,

we would like to inform you that, consenting numerous requests, we have decided to EXTEND by one week the time for submitting abstracts of contributions to the MESON2014 Conference.

The new (and final) deadline is 30th March 2014.

If you are still hesitating whether to come, you may want to inspect the list of invited speakers now available on the Conference web page. We hope that the quality of the scientific programme and the opportunity to visit the beautiful town of Krakow will convince you to take part in the Conference.

Let us remind you that pre-booking which we have arranged in some of the hotels for the MESON2014 participants expires in a few days. Shortly before the Conference you may expect difficulties finding a reasonably priced accommodation in Krakow due to the Summer increase of number of tourists.

For constantly updated information on the Conference we encourage you to visit the MESON2014 web page: <http://meson.if.uj.edu.pl>.

We are looking forward to seeing you in Krakow,

Organizing Committee
